

**Northwest Trade Gun Rod Pipes ..... #RP-NW-F-6-B**

Our ribbed brass ramrod pipes fit a 3/8" ramrod. Made like the originals, our ramrod pipes have corrugated raised ribs and grooves, to strengthen the thin brass, to prevent dents, during handling and hard use.

**#RP-NW-F-6-B** Northwest Trade Gun ramrod pipe, each **only \$2.59**

**Northwest Trade Gun Buttplate ..... #BP-NW-1-B**

Cut and formed from brass sheet, about 2" wide, this buttplate was copied from an original N. W. Trade Gun in a local collection, marked *Barnett - 1816*. Typically mounted with two or five screws, or small nails.

**#BP-NW-1-B** Northwest Trade Gun buttplate, brass **only \$19.99**

**Northwest Trade Gun Triggerrguard ..... #TG-NW-1-I**

Typically surface mounted, or very slightly inlet under the wrist of a Northwest Trade Gun, this iron triggerrguard has a large trigger bow.

**#TG-NW-1-I** Northwest triggerrguard, steel **only \$18.99**

**#Screw-6x5/8** unplated steel screw, use one or two **only \$ .20**

**Northwest Trade Gun barrel:**

Our 42" tapered octagon-to-round 20 (.615"), 24 (.580") or 28 (.550) gauge barrel is cylinder bored, 1" octagon at the breech, with .550" thread depth for 3/4-16 plug. Crowned, with wedding band. 20 gauge is also offered in 36" or 30" length.

**#BBL-20-42** barrel, 20 gauge, 42", crowned **only \$179.00**

**#BBL-24-42** barrel, 24 gauge, 42", crowned **only \$179.00**

**#BBL-28-42** barrel, 28 gauge, 42", crowned **only \$179.00**

**#BBL-20-36** barrel, 20 gauge, 36", crowned **only \$179.00**

**#BBL-20-30** barrel, 20 gauge, 30", crowned **only \$179.00**

**#Plug-ST-16-3-R** plug, 1" octagon, 3/4-16, .550" journal **only \$ 9.99**

**#Labor-BP** install breech plug, fitted correctly **only \$ 25.00**

**#Labor-US** install lug or sight, soldered, each **only \$ 20.00**

**Fusil front sight ..... #FS-Fusil-1-B, I or GS**

This blade front sight has a pointed oval base with concave inner surface. Solder it to your round barrel, typically 1-1/2" to 2-1/2" or more behind the muzzle. Wax cast brass, iron or nickel silver.

**#FS-Fusil-1-B** front sight, brass **only \$5.99**

**#FS-Fusil-1-I** front sight, iron **only \$4.99**

**#FS-Fusil-1-GS** front sight, nickel silver **only \$5.99**

**Turtle Front Sight..... #FS-NW-2-B, I or GS**

Called a "turtle" because it has four legs extending from an oval blade. Similar original sights are also called "spider" sights. Solder it to your round barrel, using StayBrite solder

**#FS-NW-2-B** front sight, brass **only \$8.99**

**#FS-NW-2-I** front sight, iron **only \$6.99**

**#FS-NW-2-S** front sight, nickel silver **only \$8.99**

**Northwest Trade Gun Trigger..... #TR-NW-3-T**

Pin this trigger directly to our stock, with a high pivot point, to provide best leverage, for easy trigger release. Modeled after an original Northwest Trade Gun trigger, our pre-inlet stock is slotted for this trigger.

**#TR-NW-3-T** Northwest Trade Gun trigger **\$7.99**

**#PIN-3-32** trigger pivot pin **\$ .50**

**Nails for Northwest Trade Gun Buttplates:**

Many trade gun buttplates used nails instead of screws. Pre-drill a undersize hole when installing in the end grain of the stock. Our cut steel nails are 1" long. Pack of 25.

**#Nail-Brad** cut nails, steel, pack of 25 **only \$ 1.99**

**Tryon flint lock for Northwest Trade Gun ... #Lock-Tryon**

Our Tryon flint lock has a fly in the tumbler, and a strong mainspring. Made in the U.S.A., you may engrave the unmarked plate. Made to fit the inlet for the LOTT lock from Italy, the Tryon lock is ideal for use in upgrading older guns, including North Star trade guns.

**#Lock-Tryon** flint lock for Trade Gun **only \$145.99**

**Northwest Trade Gun Stocks:**

Original Northeast Trade Guns are stocked in walnut, beech, apple, pear, and a variety of other hardwood species. Apparently none were every stocked in figured wood. Strong straight grain wood was selected by the gun makers of the era. Avoid the temptation to use highly figured wood. Curly maple is an excellent choice for a longrifle, but collectors and serious re-enactors now recognize it as an error on trade guns.

Precision machine inlet for our Tryon flint lock, buttplate, trigger, and our 42" (or 30", or 36") tapered octagon-to-round 20 or 24 gauge barrel. Even the wedding bands are crisply cut into the barrel channel. Order our Northwest Trade Gun parts. Most are surface mounted or easily inlet.

The forend is square ahead of the lock panels for easy clamping and drilling. A rectangular piece of the same blank is included for testing stain and finish. Ramrod hole is 3/8", drilled full depth, not milled inside. Trigger reach is about 14" with 3-3/4" drop. Buttplate end is about 4-5/8" high, 2" wide.

Antique Northwest Trade Guns have 42", 36", 30" or other barrel lengths. Our stock fits our 42" and shorter barrels.

**#STK-NWI-M1** stock, maple, plain **only \$220.00**

**#STK-NWI-W1** stock, black walnut **only \$270.00**
