Tennessee rifles often use a single lock bolt. A forward lock bolt and sideplate can be added, a small tear drop sideplate, hand inlet horizontally.

Notice how Mr. Bergmann crowned the upper edge of the side panel to the corner of the octagon barrel, creating a very slender appearance.

#Bolt-L-8-F Lock bolt, 8-32 thread, 3/8" slotted head **only \$1.59**
#SP-EHLB-I Sideplate, tear drop, iron **only \$5.99**
#SP-TN-2-I Sideplate, long Tennessee style, iron **only \$5.99**
