Tennessee Iron Banana Patchbox:

Shown in *The Kentucky Rifle*, by Merrill Lindsay, typically trimmed in iron. Copied from a rifle by J. G. Gross, Sullivan County, Tennessee. We also have the matching buttplate and triggerguard, shown exact full size, in our buttplates and triggerguards. Patchbox door spring, and fully illustrated installation instructions are included.

#PB-Kit-12-I patchbox kit, iron only \$11.99
#PB-Kit-12-B patchbox kit, brass only \$11.99

Unplated steel #6 x 1/2" flat head wood screw, for mounting a patchbox, or toeplate. Steel screws are correct for both iron and brass trim. Brass screws arrived much later, almost never used on old guns. #Screw-6x1/2 screw, #6, use two only \$.20

#Screw-6x1/2 #6x1/2 steel screw, only \$.20

Early Tennessee rifle stock, pre-inlet for lock:

Our early Tennessee fullstock is late flint era, early for the area of the Southern Mountains. Pre-inlet for any 15/16" octagon 42" barrel, drilled full depth for a 3/8" ramrod. Cut for an L&R Durs Egg flint or percussion lock, our #TR-DST-4 or #TR-DST-6 double set triggers, our #TG-TN-2-I triggerguard, and our lollipop tang plug.

The forend is pre-shaped, and the butt end has not been cut for the buttplate. This will allow you to build a primitive *poor-boy* rifle using our early Tennessee fullstock. Trigger reach may be adjusted up to 15", with 4-1/2" drop, from the line of sights. The butt end is about $5 \times 1-1/2$ ", not cut for the buttplate.

#Stk-ETI-15-M1 stock, right, 15/16", plain maple stock, right, 15/16", curly maple stock, right, 15/16", fancy maple stock, right, 15/16", fancy maple stock, right, 15/16", black walnut only \$232.50 only \$312.50 only \$222.50

Early Tennessee rifle stock, not pre-inlet for lock:

We offer our early Tennessee stock with 15/16" octagon barrel channel for any 42" barrel, and 3/8" ramrod hole, with no lock or trigger mortise cut. You may select and hand inlet your favorite lock and trigger. Buttplate is not cut, so you may adjust the trigger reach to your desired length, up to 15 inches, or create a *poor-boy* rifle by omitting the buttplate.

Southern made rifles often used locally made hand forged iron hardware, and were stocked in native woods, including walnut, cherry, maple, curly ash, and other native species.

#Stk-ET-15-M1 stock, right, 15/16", plain maple stock, right, 15/16", curly maple stock, right, 15/16", fancy maple stock, right, 15/16", fancy maple stock, right, 15/16", black walnut only \$115.00 only \$265.00 only \$175.00

You can build a better longrifle than you can buy!

Learn the simple gun making technique of hand inletting, and acquire a knowledge of gun part geometry. You can build any gun you choose, with these simple skills, a few hand tools, and Track's best gun parts and kits. No gun is ever "perfect", so don't expect perfection on your first project. Typically, 30 to 40 hours will be required to assemble and finish an undecorated longrifle. See our web site for special offers.
