

#TR-LR-1710
width is .400"
\$44.00

Curled double lever double set trigger.....#TR-LR-1710

This double set trigger has a curled end on the front trigger. Shown set, this is the maximum spacing of the front and rear triggers. Compare this distance to the bow of your triggerguard. The trigger plate is about .400" wide. Double lever triggers will fire your lock, set or unset. They have sufficient backlash to allow the lock to be cocked, before the trigger is set. Your lock must have a "fly" detent. Triggers and bar are wax cast alloy steel. The front spring and mainspring are spring steel. The bar is finished bright, and triggers and mainspring are tempered blue black. We stock all spare parts for this nice trigger, made in the U.S.A. by L&R.

#TR-LR-1710 trigger, double lever, double set **only \$44.00**

#TR-LR-1810
plate is .400" wide
\$44.00

Straight double lever double set trigger.....#TR-LR-1810

Made with shorter triggers and no curl at front, these double lever set triggers will fit within a smaller triggerguard bow. Shown set, this is the maximum spacing of the front and rear triggers. The trigger plate is .400" wide. Double lever triggers work set or unset. They have sufficient backlash to allow the lock to be cocked before the trigger is set. Your lock must have a "fly" detent, to allow the use of set trigger.

#TR-LR-1810 trigger, double lever, double set **only \$44.00**

Early Longrifle or Jaeger trigger.....#TR-LR-1910

Suitable for early longrifle triggerguards with a long closed bow, or Jaeger rifle triggerguards with an open bow, this style of trigger is found on early longrifles from Lancaster County, Berks County, Virginia, and many German and Austrian Jaeger and Hessian rifles.

The trigger plate is about .400" wide. This double lever double set trigger will fire your lock, set or unset. This trigger has sufficient backlash to allow the lock to be cocked, before the trigger is set. Your lock must have a "fly" detent, to allow the use of a set trigger.

#TR-LR-1910 trigger, double lever, double set **only \$44.00**

Spare parts for Early Longrifle or Jaeger trigger #TR-LR-1900:

We have spare parts for every L&R trigger. Same day shipment from stock, when you order online. Or call our order desk during business hours, at 763-633-2500. Priority Mail (2 to 3 day delivery) is inexpensive, ideal for shipping small spare parts. We prefer it.

#TR-LR-Bedford
plate is .400" wide
\$55.00

Bedford County double set trigger.....#TR-LR-Bedford

Made with more petite triggers, and with a curved trigger plate, this double lever double set trigger was designed by L&R to fit our precision inlet Bedford County rifle stock. Best for a longrifle with a profile requiring a curved trigger plate. Double lever triggers will fire your lock, set or unset. This trigger has sufficient backlash to allow the lock to be cocked before the trigger is set. Your lock must have a "fly" detent, to allow the use of set triggers.

#TR-LR-Bedford trigger, curved, for Bedford County **only \$55.00**

Spare parts for # TR-LR-Bedford:

All parts except those listed here are the same as the #1710 trigger.
