

**Hawken double set trigger, designed by Ron Long .....#TR-PA-20**

The famous lock maker, Ron Long of Denver, designed this Hawken rifle trigger for Green River Rifle Works.

Made in the U.S.A. by R. E. Davis, each trigger bears his (D) touchmark. This double lever double set trigger has the correct amount of backlash, to allow the lock to be cocked and fired, while the trigger is set or unset.

We stock spare parts, which also fit the similar older set triggers by Green River Rifle Works, Ron Long, Peter Allan, or certain other makers.

**#TR-PA-20** trigger for Hawken, by R. E. Davis **only \$55.99**

**#TR-PA-20**  
plate is .504" wide,  
with beavertail finial  
**\$55.99**

# Hawken Triggers

**shown actual size**

Made in the U.S.A.

**Hawken double set trigger, by L&R Lock Company.....#TR-LR-1400**

The late style curved front trigger distinguishes this trigger from the nearly identical early straight front trigger, below. Made by L&R Lock Company, each trigger bears their touchmark. Double lever style, it has enough backlash to allow the lock to be cocked and fired, with the trigger set or unset.

Spare parts may be used in identical triggers from older Hawken rifles and kits, made by Sharon Rifle Barrel Company, sometimes marked with the "Old West Arms" brand name. We stock lock parts for Sharon rifles, too!

**#TR-LR-1400** trigger, late Hawken, curved front trigger **only \$55.00**

**#TR-LR-1400**  
plate is .470" wide,  
with beavertail finial  
**\$55.00**

**Early Hawken double set trigger, by L&R Lock Co.....#TR-LR-1300**

This Hawken double lever double set trigger features an early straight front trigger, but is otherwise identical to the curved front trigger, above.

Use our early Hawken "flat grip rail" triggerguard with this trigger, on an early variation Hawken halfstock or fullstock rifle.

The double lever design has sufficient rear trigger backlash (free travel) to allow the sear to return the rear trigger. This allows the lock to be cocked with trigger set or unset, in any sequence, if properly adjusted.

**#TR-LR-1300** early Hawken trigger, by L&R **only \$55.00**

**#TR-LR-1300**  
plate is .470" wide,  
with beavertail finial  
**\$55.00**

**Spare Parts for R. E. Davis Hawken trigger:**

We know these nice triggers very well, and we can provide spare parts from stock, with same day shipment. We use this trigger in our Kit Carson's and Jim Bridger's Hawken rifle kit. It is our favorite.

<b>#TR-PA-20-PL</b>	trigger plate	<b>\$23.99</b>
