

# Scrimshaw Quality Powder Horns

## Mostly White Powder Horns:

### Priming Horn, small, polished white.....#Horn-WS

Ideal for priming your flint gun, our small white priming horn is about 4 to 5" length. It closely matches our medium or large white powder horn. When ordering both a powder horn and priming horn, request a "matching set", and we will select a color matched pair.

Hand made in the U.S.A., this select white horn has a dark stained hardwood butt plug and stopper, fitted with solid brass nails. Ideal for your scrimshaw decoration. Horn sizes and shapes may vary.

#Horn-WS small priming horn, mostly white **only \$64.99**

### Powder Horn, medium, white..... #Horn-WM

Our medium size powder horn is called a "hunter's horn" or "day horn", since it carries a one or two day supply of powder.

Polished white, this horn has a dark tip, turned hardwood plug, stopper, and brass nails. The neck is grooved for the leather strap, included. Horn sizes vary from 6" to 9".

#Horn-WM medium horn, mostly white **only \$75.99**

### Powder Horn, large, white..... #Horn-WL

**A selected white horn, ideal for your scrimshaw engraving.**

Our large 11 to 14" powder horn has hand cut facets at the transition from the white body to the dark neck, and a groove for the leather strap. Ideal for your scrimshaw.

Hand made in the U.S.A., this select white horn has a dark stained hardwood butt plug and stopper, fitted with solid brass nails. Ideal for your scrimshaw decoration. Sizes and shapes vary. No two alike.

#Horn-WL large powder horn, mostly white **only \$79.99**

## Antiqued Patina Finished Horns:

### Priming Horn, small, antiqued patina finish.....#Horn-AS

This attractive small horn, about 4 to 5" length, is made for priming flint locks. It closely matches our medium or large antiqued powder horn.

When ordering both a powder horn and priming horn, request a "matching set", and we will try to select a color matched pair.

This antique patina finished horn looks old, and its appearance will improve with use. It has a dark stained hardwood butt plug, stopper, brass nails, and the horn has mottled tones, from smoky yellow to rich caramel. We recommend this powder horn to the primitive hunter.

#Horn-AS priming horn, antique patina **only \$52.99**

### Powder Horn, medium, antiqued patina finish..... #Horn-AM

The remarkable antique patina finish causes horn makers to inquire about our patina recipe. We have no idea how the old master horn maker achieves such amazing results!

Our medium 6 to 9" "hunter's horn" has a dark tip, hardwood plug, stopper, brass tacks, and leather strap. Horn shapes may vary.

#Horn-AM medium horn, antique patina **only \$59.99**

### Powder Horn, large, antique patina finished.....#Horn-AL

Our large powder horn can hold nearly a full pound of black powder, enough for a big weekend rendezvous or primitive shooting match. The turned hardwood butt has an acorn finial, retained by brass nails.

#Horn-AL powder horn, 11 to 14", antique patina **only \$65.99**
