#Plug-TC-Scout-11 T/C Scout breech plug with integral nipple **only \$18.99**

#Plug-TC-Scout-11 Breech Plug with integral nipple for T/C Scout Carbine, Rifle or Pistol

Breech Plug with integral nipple for Thompson Center Scout carbine, rifle, or pistol, to fit #11 CCI or Remington cap. The vent holes are designed to "index" and align exactly with the vent holes in your T/C Scout frame. Made in the USA of 416 alloy Martensitic (hardened magnetic) stainless steel.

Replaces T/C part number 723.
#Plug-TC-Scout-11 T/C plug & integral nipple **only \$18.99**

Rethreading Taps

To refresh, repair, and restore worn 1/4 - 28 nipple seat threads to safely fit our nipples with oversize threads. Set contains five oversize 1/4-28 taps: .255-28 (+.005"), .260-28 (+.010"), .265-28 (+.015"), .270-28 (+.020"), .275-28 (+.025").

Use these taps, in sequence, to enlarge a 1/4-28 thread. Install a matching oversize nipple where a standard 1/4-28 nipple is unsafe. Use thread cutting oil. Stop when threads are restored. Do not enlarge nipple thread seats unnecessarily.

Made of tempered steel, use a tap handle. Properly used, taps should last a lifetime. They can be carelessly damaged, chipped, broken, dulled, or rusted. Not warranted against failure. Repairs are best performed by skilled gunsmiths, experienced machinists or serious hobbyists. Set of five is packed in a small wooden case.

#Tool-Retap set of 5 oversize threading taps **\$69.99**

• Individual oversize taps are now available:

#Tool-Tap-05 rethreading tap, .255-28 (1/4-28 + .005") **\$14.99**
#Tool-Tap-10 rethreading tap, .260-28 (1/4-28 + .010") **\$14.99**
#Tool-Tap-15 rethreading tap, .265-28 (1/4-28 + .015") **\$14.99**
#Tool-Tap-20 rethreading tap, .270-28 (1/4-28 + .020") **\$14.99**
#Tool-Tap-25 rethreading tap, .275-28 (1/4-28 + .025") **\$14.99**
