Lee Breech Lock Challenger Press#Lee-90588

The "O" frame press by design is the strongest and most popular style press by far. The large opening and long stroke handles most Sharps rifle cases with ease. The primer catcher is positive and routes the spent primers directly to the trash can. It includes the breech lock quick change die system. Change dies instantly with a twist of the wrist.

#Lee-90588 Lee Breech Lock Challenger Press **only \$72.99**

Lee Reloader Press#Lee-90045

An outstanding value. Balanced lever that can't drop down to pinch your fingers. Unlimited hand clearance that only a "C" frame can offer. Works equally well with the right or left hand. Even if you already own a press, an extra press is always useful for de-capping, priming, or bullet seating.

#Lee-90045 Lee Reloader Press **only \$29.99**

Lee Breech Lock Hand Press#Lee-90685

A full size hand held portable reloading press, yet it weighs only 1-1/2 pounds. No matter how much equipment you have, it's great to have a portable hand press. Now it comes with the new Lee breech Lock System to allow quick die changes.

#Lee-90685 Lee Breech Lock Hand Press **only \$34.99**

Lee Safety Prime.....#Lee-90997

Makes priming on the press a delight. Never touch the primers from box to cartridge. Primer flip tray features a CAD designed flipping surface that instantly rights the primers. Change primer size in seconds. Primers are dispensed with a click of the primer feed trigger.

#Lee-90997 Lee Safety Prime **only \$22.99**

Lee Ram Prime.....#Lee-Ram-Prime

Primes on the press up-stroke for a more sensitive feel. Includes easy to change punches for both large and small primers. Fits all brands of presses. Feel the primer touch the pocket bottom.

Lee Classic Cast Turret Reloading Press, cast iron with steel columns#Lee-90064

The sturdy iron base shows its Classic Cast roots. The long stroke allows rifle cases over three inches long to be loaded using the automatic index.

Deactivate the Auto-Index and even longer cases can be loaded. The rigid cast iron frame supports the ram with over 12 inches of area. Three heavy steel columns rigidly support the rotating turret. A large ram is drilled completely through to dispose primers in an attached clear PVC tube. Instantly interchangeable turrets are the same as used on the older Lee Turret Press.

Order several extra turrets, mount and adjust your Sharps rifle dies, and never touch them again, when changing die calibers. We use both the Lee Cast Classic Press and this Turret Press, at Track.

#Lee-90064 Lee Cast Classic Turret Press, with 4 station turret **only \$110.99**

#Lee-90497 extra turret, for Lee Cast Classic Turret Press, 3 holes **only \$ 8.99**

#Lee-90269 extra turret, for Lee Cast Classic Turret Press, 4 holes **only \$ 9.99**

Lee Classic Cast Press, a large smooth single stage press, cast iron.....#Lee-90998

The largest opening in the industry and largest stroke. Rigid cast iron construction, with a durable baked powder coating. Large flat cored base with three mounting holes, for secure installation on your reloading bench. The adjustable handle may be moved for right or left hand use, and is completely adjustable. Includes two primer arms for large and small primers.

Largest 1-1/8" diameter hollow ram catches every primer, with a hose fitting to allow primer disposal. Threaded die adaptor accepts standard 7/8-14 dies. Remove it to allow 1-1/4-12 large dies for the modern .50 BMG, or antique .577 Snyder, or .577-450 Martini, or other very large cartridges.
